- Producer of more than 50 commercially active flour recipes catering to diverse customers and product needs.
- World-wide supply capability (Shipping, Trucking, Container, Vessels) in more than 30 countries.
- Sourcing capabilities to import finest wheat grains from across the world.

Emigrain is a B2B brand that caters to a wide range of channels specializing in wheat-based products such as Flour, Semolina and Bran. The brand serves multiple business channels including HORECA, Chains, Bakeries, Industrial Customers and Tandoors.

Al Baker is recognized well amongst its consumers and has a very strong brand equity. It is the answer to the long-felt need of Arab and Asian consumers in the Middle East for premium quality packaged wheat flour, which faithfully retains the flavor of freshly milled flour.

Pristine with a comprehensive range of specialty flours and functional flours (including heat-treated flours) is designed to include ingredients such as flour, wheat germ, wheat bran and semolina, each carefully formulated to deliver specific functional benefits. These benefits range from enhanced water absorption, varying degrees of coarseness and improved shelf life. In addition, products are developed with clean label requirements in mind, ensuring that they meet the growing consumer demand for transparency and natural ingredients.

Swarna has been built on the commitment of delivering a fresh taste of home to the consumers living across the globe. These products are made from selected grains sourced from the world's finest fields that are hygienically processed with the best quality control measures present at IFFCO's state of the art facilities.
